Memorandum

Date: August 11, 2009

To: Humboldt Area

Attention: Captain D. A. Cannon

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.A7146.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on July 1 - 2, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI randomly selected items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 578 items (a). The statistically-valid sample at a 95 percent confidence level ± 4 percent error rate provided a total sample size of 82 items [subtotal of (c)]. Each OPI inventory list was stratified [(b) x subtotal of (c)] and the results rounded to the nearest whole number (d) to ensure all inventory lists were proportionally represented in the statistically-valid sample.

	Population Size (a)	Percentage of Total (b)	Calculated Sample Size (c)	Predetermined List Sample Size (d)
ICU Decals	227	39.27%	32.20	32
Telecom.	220	38.06%	31.21	31
Fleet	25	4.33%	3.55	4
Weapons	106	18.34%	15.04	15
Total	578	100%		82

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, seventy-one of the eight-two items were located. Nine items were unavailable for inspection due to employees being out of the office, and two items could not be located because it had been transferred to another command. Furthermore, four of the seventy-one items require a correction be made to the property record. The property inspection results of the equipment recorded on the

predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment located at the command to the OPI inventory lists, one hundred of the one hundred seventeen items reconciled. One item was not listed on the appropriate OPI inventory list, and sixteen require a correction be made to the property records. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by November 5, 2009.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.
