State of California | Business, Transportation and Housing Agency

Memorandum

Date: January 8, 2010

To: Oakland Area

Attention: Captain D. E. Morrell DON

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.A07146.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires Departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by the Oakland Area was conducted over several days during the months of March and April 2009. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that California Highway Patrol (CHP) inventory records are complete and accurate, your command was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on December 14, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 994 items (a). The statistically-valid sample at a 95 percent confidence level ± 5 percent error rate provided a total stratified sample size of 60 items when rounded up to the next whole number (d).

	Population Size	Percentage of Total	Calculated Sample Size	Predetermined List Sample Size
	(a)	(b)	(c)	(d)
ICU Decals	418	42.05%	24.39	25
Telecommunications	347	34.91%	20.25	21
Fleet	43	4.33%	2.51	3
Weapons	186	18.71%	10.85	11
Total	994			60

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 59 of the 60 items were located. One item was transferred to another command and one of the 59 items requires a correction to the property record. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment assigned to the command to the OPI inventory lists, 90 of the 98 items reconciled. Two items were not listed on the appropriate OPI inventory lists and six items require corrections to the property record. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by April 8, 2010.

Furthermore, in accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the CHP's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.

M. C. A. SANTIAGO, CIG
Assistant Commissioner
